Over the past few days, our product support team has identified a compatibility issue with MYOB cashbook versions purchased before 2007.

This product is outside our ordinary support range, so rather than issue a fix, we would like to offer you a free upgrade to the latest version of MYOB Cashbook.

This will mean you have all the benefits of our latest version.

The upgrade is simple to download and install - and all your existing data will be preserved.

To upgrade your clients MYOB Cashbook for **FREE** call 0508 32 82 83 and we will assist you with a download to the latest version.

Alternatively if you have any queries or concerns please contact your MYOB Account Manager.

Regards  
Jenny

What sort of compatibility issue? Does it affect all users or only some? i.e. Should everyone upgrade? Should I upgrade my one cashbook client?

Essentially, dates with the year 2010 in them, are not recording properly in pre 2007 versions of Cashbook. This will affect all clients on older versions of the software, and they are all therefore eligible for a complimentary upgrade to MYOB Cashbook 2007.

If you need any further clarification or assistance, please don't hesitate to contact your Account Manager, or the Partner Relations team, on 0800 69 62 27.

Regards,  
Ben
